

Table lamp

MERIDA – R54036132

incl. 1x SMD, W · 1x 0lm, 2700K

- **Switch**
- **Rechargeable battery operated**
- **IP44**
- **Solar**
- **Not dimmable**

The MERIDA solar light with its modern shape and colour provides beautiful light accents with a wow effect. The solar panel allows the light from the sun to be captured and converted into electricity, making the table lamp an energy-saving and flexible alternative. Due to the protection class IP44, the table lamp is protected against splashing water and is perfectly suitable for outdoor use. If you want to use the lamp as a decorative wall lamp, a metal handle is included in the delivery. Whether in the garden, on the terrace or in the living room, the MERIDA will find its place in your home! The cage-look design in matt black metal leaves plenty of scope for decorative options. In addition, the luminaire features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED lamps help you benefit from a long service life, low heat generation and at the same time protect the environment.

Material construction

Metal · Black mat

Product dimensions

Height: 31cm
Diameter: 17cm
Weight: 0,585kg

Technical data

Light source: SMD – LED (integrated)
Kelvin: 2700K
Color rendering (CRI): > 80 CRI
